

DID YOU KNOW?

Wayne County Hospital now has the most powerful MRI in the county!

We also have:

- Improved scheduling
 - Leading edge technology.
 - Five times stronger magnet than any other MRI in Wayne County, for a much clearer image.

“In my experience, high-strength closed MRI like the 1.5 tesla unit at Wayne County Hospital, produces a much better picture, and therefore provides better diagnostic images. This often eliminates the need for additional scans and extra expenses required when patients get their first scan in an Open low-strength MRI.”

“I strongly recommend that patients have their first MRI in a machine that produces the best diagnostic result; and that would be a higher strength unit, such as at Wayne County Hospital.”

Scott Babin, M.D., Medical Director

VIP Imaging, PLLC

- Board Certified Radiologists review every exam.
- Board Certified MRI technologists
- Quick interpretation of study results available as needed.

DO NOT RISK HAVING TO PAY FOR THE SAME EXAM TWICE BY CHOOSING A LOWER QUALITY EXAM FOR YOUR MRI STUDY.

NEW: We now handle scheduling and pre-authorization for your exam.

All your doctor's office does is make one phone call to schedule your appointment, and we take care of the rest!

The Higher Image Quality MRI is at Wayne County Hospital!

Yes, you **DO** have a choice as to where your testing can be done!

Choose to get a high quality image the FIRST TIME!
